

STUDY INVITATION

A Novel Evaluation of Addiction Training (NEAT) Study

Dear Dr./ Mr./ Mrs.,

As part of the quality assurance process for the Canada Addiction Medicine Training Program, we invite you to participate in a brief survey that collects information on your knowledge of addiction medicine/ your mentorship or career progression. Your responses will be used to evaluate the impact of the training program on self-reported knowledge of addiction medicine.

The survey is optional and taking part in this study is entirely up to you. You have the right to refuse to participate in this study. If you decide to take part, you may choose to withdraw at any time without giving a reason and without any negative impact on your career or training.

The centre faculty and staff will not know how you responded to this survey, except the Site Coordinator, and data collected will be kept entirely confidential. Your answers to the survey questions are for quality improvement purposes.

If you are interested in taking part, please proceed and click on the link to the survey questions.

Completion of this survey signifies your consent to participate in A Novel Evaluation of Addiction Training (NEAT) Study.

For more information about the survey, or if you have any questions/comments about the study, please email (agiesler [at] cfenet.ubc.ca) or call me (604.416.1535) directly.

Thank you for your consideration.

Yours sincerely,

Amanda Giesler
Project Coordinator, Implementation
British Columbia Centre on Substance Use (BCCSU)
on behalf of

Dr Evan Wood, Program Director and Principal Investigator
