

# Licensed Treatment and Recovery Services in British Columbia

In partnership with the Ministry of Mental Health and Addictions and the Ministry of Health, the BCCSU has compiled the following list of licensed substance use facilities in British Columbia. Facilities that offer a higher intensity of services to individuals who require additional levels of support must be licensed. Monitoring and oversight of licensed facilities is the responsibility of the regional health authority community care licensing. The following information has been collected directly through service providers and publicly available information and is subject to change at any time. As such, it is recommended to call these facilities directly to get the most up to date information and to address any special considerations and requirements you may have.

Residence	Address	Postal Code	Phone	Website	Accepting clients on OAT?*	General Eligibility Requirement	Email address
<b>* For further information about OAT policies, please contact facilities directly to guide your decision making and determine if the service fits with your recovery goals and current medications.</b>
