

Treatment and Recovery Services in British Columbia (Licensed)

In partnership with the Ministry of Mental Health and Addictions and the Ministry of Health, the BCCSU has compiled the following list of licensed substance use facilities in British Columbia.

Facilities that offer a higher intensity of services to individuals who require additional levels of support must be licensed. Monitoring and oversight of licensed facilities is the responsibility of the regional health authority community care licensing. Please note inclusion on this list is voluntary and that the following information has been collected directly through service providers and is subject to change at any time. As such, it is recommended to call these facilities directly to get the most up to date information and to address any special considerations and requirements you may have, including waitlists and wait times.

Residence	Address	Health Authority	Phone	Website	Email	General eligibility requirement	Accepting clients on OAT?*	Requirement to complete medical detox or withdrawal management before entering?	Requirement to be substance-free before entering?	Typical length of program	Accepting self-referred clients?
<i>* For further information about OAT policies, please contact facilities directly to guide your decision making and determine if the service fits with your recovery goals and current medications.</i>
